Access Suncor's Library of Information

The Suncor Stainless Partner Portal is available through our website. This is where you'll find information and tools to market, sell and support Suncor products for mutual success. This portal includes installation instructions, specifications, product photo galleries, web links and a video library. To access the [Partner Portal](#), visit the "Contact Us" page and click on the partner portal link. First time users must create a new account by simply filling in a few fields, including username, email address and Suncor account number.

NEW INDUSTRIAL & MARINE PRODUCTS

Forged Strength

High Performance Swivels

Suncor's new forged swivels are ideal for lifting or rigging applications where twists in chain, wire rope or fibrous rope are unwanted. These swivels are used to relieve stress caused by twisting and knotting while being pulled taut. Sizes range from 3/16" to 5/8" and they are made from grade 316 stainless steel for maximum corrosion resistance and durability. They can also support loads up to 5,200 lbs. and feature multiple configurations to fit every application. These products are positioning devices and are not intended to swivel or rotate under load. Many of the forged swivels are manufactured in accordance with Federal Specification: RR-C-271F Type VII (except 316 stainless steel).

SIZES: 3/16" - 5/8"
GRADE 316 STAINLESS STEEL

QUICK ATTACH™ Lifelines

WITH GATE

WITHOUT GATE

Do-It-Yourself Lifeline Kits

Rig a Lifeline in Minutes using Simple Hand Tools

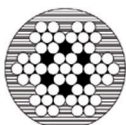

We have reconfigured our Quick Attach™ Lifeline Kits to offer simplicity and new options to our customers. Currently, the lifeline kits include 40 ft. of wire rope and the appropriate Quick Attach™ fittings for a gated or non-gated lifeline. Now we are going to start offering the wire rope separately in lengths of 30 ft., 40 ft. and 50 ft.

The Quick Attach™ hardware will be offered in a closed-body style as a gated or non-gated kit in a new, smaller carrying case. This will allow customers to purchase the appropriate amount of wire rope for their boat.

NEW!
Compact Carrying Case

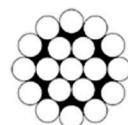

AVAILABLE WIRE ROPE SOLD SEPARATELY & OFFERED IN A VARIETY OF LENGTHS

Suncor EasyLink

Web-Based Advertising Tool

We have developed a new web-based advertising tool called EasyLink. This tool is a spreadsheet of links for every product that Suncor offers. It contains 2 link options; product page and image links. The product page links show an image, line drawing, part numbers, title, description and specifications. The image links are high resolution, clipped product images. The product page links are non-branded, so they can be added directly to your website.

EasyLink Benefits

There are many benefits of the EasyLink tool. These links can be easily integrated into your own website by simply adding the link to the appropriate section of your website. You can pick and choose which products you would like to include. If there are any product changes, once they are updated on the Suncor site, the links will automatically update, so you will always have the most up-to-date product information and images. Suncor technical support is always available to help utilize the EasyLink tool.

- Easily add Suncor products to your website
- Product changes update automatically
- Choose detailed specs and/or high resolution product images
- Suncor technical support available

How to Access the EasyLink Tool

This tool is located in the Partner Portal. To access the [Partner Portal](#), visit the "Contact Us" page and click on the partner portal link. First time users must create a new account by simply filling in a few fields, including username, email address and Suncor account number. Once logged in to the portal, click the "EasyLink Web Advertising" tab at the top of the page.

Add Suncor Stainless Products & Product Photos to your Website - Quickly & Easily!

The spreadsheet below contains links to all Suncor Stainless product pages and downloadable versions of our product photos. The pages are non-branded, so you can add these links right to your website!

Simply click on the links to view the non-branded product page or downloadable product photo. You can then add the link directly to the appropriate section of your website. Here are some helpful link inclusion coding suggestions. If you have any questions, please feel free to contact the Partner Portal Support Team.
